itx-tayyab

Summary

I am a creative and results-driven professional with a strong passion for innovation and excellence. I possess excellent problem-solving and communication skills, and I adapt quickly to fast-paced environments. With a proven ability to manage projects efficiently and meet tight deadlines, I bring both focus and flexibility to my work. I thrive as a collaborative team player with a proactive approach to learning and growth. Always motivated to contribute value, I consistently aim to exceed expectations in every role I undertake

Experience

Cubic Solution. Inc — **Aug 2025 - Present**

Web Developer — Lahore

cubicsol.com

As a member of the engineering team, I am leading the modernization of the company's ERP/CRM platform, transforming legacy systems into a scalable, cloud-ready architecture designed for long-term growth.

• Leading the migration from a tightly coupled monolithic system to a modular, microservices-based backend, significantly improving system scalability, maintainability, and performance.

• Designing and implementing secure multi-tenant infrastructure with strict data isolation and role-based access control to support multiple businesses on a single platform.

• Developing high-performance, interactive dashboards and user interfaces that provide real-time visibility into operations, finance, and inventory.

• Optimizing application performance, stability, and responsiveness to ensure a smooth and consistent experience across all devices.

• Partnering closely with leadership to convert business requirements into technical solutions and ensure the product roadmap supports long-term scalability and product vision.

Deal.ai — **January 2025 - July 2025**

Web Developer & Designer — Remote

Deal.ai

● Built high-converting funnels using Deal.ai's AI-powered drag-and-drop builder based on client goals and branding requirements.

● Enhanced funnel functionality and design with custom HTML, CSS, and JavaScript for advanced layout and interactive elements.

● Participated in internal and client-facing meetings to discuss feedback, suggest improvements, and implement requested changes.

● Collaborated with the design and content teams to ensure consistency across funnel sections and maintain a seamless user journey.

● Updated and iterated funnels based on user behavior data and client reviews to improve performance and conversion rates
